

FLEXIT B.V.

Environmental Statement

FLEXIT opts for sustainable development and management of its processes and considers it as its responsibility to minimize the environmental impact of these processes and to contribute to a sustainable society.

Top management is committed to leading the industry in minimizing the impact of its activities on the environment. The key points of its strategy to achieve this are:

- Minimize waste by evaluating operations and ensuring they are as efficient as possible.
- Actively promote re-use both internally and amongst its customers and suppliers.
- Source and promote a refurbished product range to minimize the environmental impact of both the production and distribution of new IT products.
- Meet or exceed all the environmental legislation that relates to the company.

Top management expects its employees and other stakeholders to take responsibility for being able to do business in a sustainable and socially responsible manner. FLEXIT complies with the set of requirements from the applicable legislation and regulations and the requirements that the standard sets for the organization.

Angelo Bul

Chief Executive Officer
